DETAILED ACTION

Election/Restrictions

Applicant's election without traverse of Species VI in the reply filed on August 16, 2003 is acknowledged. Claims 11-13 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected Species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on August 16, 2004.

Claim Objections

Claim 10 is objected to because of the following informalities: on line 2, the word "would", before the word "thereon", should be replaced with the word --wound--. On line 7, the word "a", before the word "interior", should be replaced with the word --an--. Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 10 is rejected under 35 U.S.C. 102(b) as being anticipated by Kaneda et al (U.S. Patent Application Publication No. 2002/0047063).

With respect to Claim 10, Kaneda et al, Figures 1-3, teach a magnetic tape cartridge comprising: a cartridge case 1,2 in which a single reel 3 with magnetic tape wound thereon is rotatably housed; and a slide door 6, urged in a closing direction by a coil spring member 6a, which opens and closes a tape leader opening for pulling out one end of said magnetic tape;

wherein a rib (near 2a, see picture below) is provided for connecting an exterior wall, on the side of said tape leader opening, behind a passageway along which said slide door slides, and an interior wall facing said exterior wall.
